

Britney Spears, I will still love u

Time may take us apart
But I will still love you
I promise
And when the stars, stars are falling
I'll keep calling
I promise that you'll be my one, my only, everything
I'll never be untrue
And I promise back that for your love I will do anything
I will give you the stars
I will buy you the moon
Even through the longest of our nights
And even through the darkest days
Our love will find a way
Chorus:
And when the stars are falling
I'll keep calling
I will still love you
And when your dreams are fading
I'll be waiting
I will still love you
You are my summer breeze, my winter sunlight, springtime song
My autumn touch of gold
You are my sky, my rain, the earth in which my love grows
The smile in my heart, and the breath in my soul
Even if we find ourselves apart
We will hold our hopes and dreams
Forever in our hearts
Chorus
Tell me how you feel
I finally know how love feels
Tell me if it's real
My heart tells me it's real
So real
And when the stars are falling
I'll keep calling
I will still, I will still love you
I will still be loving you
And when your dreams are fading
I'll be waiting
I will still love you
I will still love you baby
Time may take us apart, that's true
But I will always be there for you
You're in my heart, you'll be in my dreams
No matter how many miles between
I promise you that I won't forget
The day we kissed, or the day we met
The sky may fall, and the stars may too
But I will still, I will still love you
