

Britney Spears, Now Until Forever

a... yea
they say in this world
love cant last forever,
but i dont believe thats true
cause the way that i feel
when we are together
i know thats the way
ill always feel for you
from now until forever
thats how long ill be true
ill make you this vow
and promise you now until forever
ill never stop loving you
they'll come a day
when the world stop turning
and stars will fall from the sky
but the spinning will last
when the sun stops burning
all I wanna do is love you
till the end of time
from now until forever
thats how long ill be true
ill make you this vow
and promise you now until forever
ill never stop loving you
It's gonna take more than a lifetime
to give you all the love
I feel for you tonight
from now until forever
thats how long ill be true
ill make you this vow
and promise you now until forever
ill never stop loving you
from now until forever
thats how long ill be true
ill make you this vow
and promise you now until forever
ill never stop loving you
until forever
ill never stop loving you
