

Britney Spears, That's Where I Found

I believe we all have one true love
Somewhere in this world, I do
When it seemed, all my dreams,
were falling through,
That's when I found you
I believe for every heart
That whispers in the dark,
There's a ray of light somewhere shining through
It must sink or swim
When the tide came in
I found myself,
When I found you.
I found the closest thing to heaven
I found the deepest girl I knew
I believe, yes it's true,
I found myself when I found you.
I believe, for every door that's closed,
For every heartbreak,
There's hope for something new
From the ashes arise,
A glimpse of paradise
There's a flicker in your eyes,
When I found you.
I found the closest thing to heaven
Yes I found, the deepest love I knew
I believe, yes it's true
I found myself when I found you
Our life unfolds
No-one knows
I thought love was just a
Tingling in my skin
I felt so alone,
All alone
More than you could ever know,
It's your deep love
Sweet love
When I found you
I found the closest thing to heaven
Yes I found, the deepest love I knew
I believe, yes it's true
I found myself when I found you
