

# Britney Spears, When I Found You

I believe  
We all have one true love  
Somewhere in this world  
I do (I do, I do)

When it seemed  
All my dreams  
Were falling through  
That's when I found you

I believe for every heart  
That whispers in the dark  
There's a ray of light somewhere  
Shining through  
It was sink  
Or swim  
When the tide came in

I found myself  
When I found you  
I found the closest thing to heaven  
Yes in you  
I found the deepest love I knew  
Ooooh Ohh  
I'll believe  
Yes it's true  
I found myself  
When I found you

Ooh yeah

I believe (I believe)  
For every door (Every door)  
That's closing  
For every heartbreak  
There's hope for something new  
From the ashes rise a glimpse of paradise  
It still flickered in your eyes

When I found you  
I found the closest thing to heaven  
Yes in you  
I found the deepest love I knew  
Ooooh Ohh  
I'll believe  
Yes it's true  
I found myself  
When I found you

A life unfolds  
No one knows  
I thought love was just a tingling of the skin  
I felt so alone  
All Alone  
More than you could ever know  
You show deep love  
Sweet love

When I found you (I found love)  
Oooh (the closest thing to heaven)  
Oh yeah  
I found you baby, I found you  
I found you  
Yeah

I found myself

When I found you

I found the closest thing to heaven

Yes in you

I found the deepest love I knew

Ooooh Ohh

I'll believe

Yes it's true

I found myself

When I found you, you
