

Brittany Howard, Stay High (Childish Gambino Version)

i already feel like doing it again, honey
cuz once you k now
then you know and you don't wanna go
back to wherever it is that you come from

I just want to stay high with you

cuz where i come from everybody frowns
and walks around with that ugly thing on their face
and where i come from we work hard
and grind and hustle all day
there comes a time
there comes a time
at night where we get to play
and we smile and laugh
and jump and clap and yell
and holler and just feel great!

I just want to stay high with you

so, don't question my state of mind
I am doing wonderful just fine
thank you
everything is everything and everything is beautiful
see all I do is keep it cool
and don't worry bout what everyone is doing

I just want to stay high with you
