

Brodka, Horses

I'm a car crash girl
There's a fire in my breathless soul
No single tear
Beyond control

Why's the night so long
Got no guru that will
Take me home!
My lonely heart
From end to start

Horses
Metal catch on fire
Horses
Riders of denial
And faces
Look into dark
Look into dark
Look into dark

In the void I go
Nothing here seems close to what I know
Here comes the night
My midnight rite

Horses
metal catch on fire
Horses
Riders of the denial
And faces
Look into dark
Look into dark
Look into dark
