

# BROODS, Heartlines

We could fool the datelines  
We could jump the state lines  
I don't always play nice  
But I wanna feel your heartlines  
I wanna feel your heart

Have you been let down by the ones before?  
Do you leave too soon to know?  
Never fell in love 'cause I just cut loose  
But not when it comes to you

Dressing in black, you're around for the weekend  
Dancing at night, you're the light that I won't let go  
And I want you close

We could fool the datelines  
We could jump the state lines  
I don't always play nice  
But I wanna feel your heartlines  
I'll pick you up at midnight  
We'll run to beat the sun light  
We only get the one life  
And I wanna feel your heartlines  
I wanna feel your heart

Now we're far apart, in and out of touch  
And the words don't mean as much  
So I sit across from someone new  
But they don't compare to you

Lying in bed wide awake I remember  
Dancing at night you're the light that I won't let go  
And I want you close

Lying in bed wide awake I remember  
Dressing in black you were here for the weekend  
And I won't let go  
'Cause I want you close
