Brother Firetribe, Breakout

Hello, is there anybody out there Anybody out there to hear me call Now I, I gotta take my chances I gotta take chances To get outta this place Explode into space I feel it coming Feel it in my soul, I'm bursting up Inside with my freight train heart I'm rolling down the track [refrain:] Breakout, keep the fire burning Breakout, keep the wheel turning Breakout, I gotta have my freedom Breakout, I've been waiting Breakout, anticipating Breakout, I gotta have my freedom Tonight chains are gonna break down There'll be a shakedown Breaking through the barriers When I, when I'm where I wanna be No more under lock and key There's no going back No turning back I feel it coming Feel it in my soul, I'm bursting up Inside with my freight train heart I'm rolling down the track [refrain] I feel the hunger rising I feel it in my bones and in my heart And nothing stops me now [refrain]
