

# Bryan Adams, Always Have, Always Will

You always have - you always will  
We've been thru it all - 'n we're together still

I can always depend on you  
You give me trust - that is true  
I loved you yesterday - I luv you still  
I always have - 'n always will  
You're so beautiful - amazing  
So beautiful - it's indisputable

You always have - you always will  
We've been thru it all - 'n we're together still  
Ain't nothing can shake it - ain't nothing can break it  
You're the only one that makes my heart stand still  
You always have and you always will

When my life seemed done - you made it last longer  
They say a man is strong - but a woman is stronger  
You're so beautiful - amazing  
So beautiful - it's indisputable

You always have - you always will  
We've been thru it all - 'n we're together still  
Ain't nothing can shake it - ain't nothing can break it  
You're the only one that makes my heart stand still  
You always have and you always will

Because you're so beautiful - amazing  
So beautiful - indisputable  
You always have - you always will  
We've been thru it all - 'n we're together still  
Ain't nothing can shake it - ain't nothing can break it  
You're the only one that makes my heart stand still  
You always have and you always will
