

# Bryan Adams, Don't Look Back

Look into the eyes of a child, it's magic  
Once in a while  
You don't know what to say  
You throw it all away

Hold onto your dreams, you can find them  
Take a look around  
Remember who you are  
You don't have to look that far

I'd given up on happy endings  
You know that it won't last  
Don't look back  
Don't look back

Reach into your soul, it's amazing  
Open up your eyes  
And face another day  
And find a better way

Hang onto your heart, it's surprising  
It's easy to believe  
You can lose it in the end  
And find it all again

I'm turning nightmares into dreams  
And the fear is fading fast  
Don't look back  
Don't look back

How can I go on pretending  
Living in the past

Don't look back  
Don't look back

Don't look back  
Don't look back

Don't look back

Backing vocals:  
How can I go on pretending  
I'd given up on happy endings

Even though your heart is breaking  
Love is there - it's for the taking
