

Bryan Adams, Friday Night In London

I've been around - I've seen some things,
I've drank champagne by the Seine,
And I know 'bout the pleasure it brings,
I've been around the world - but that ain't enough,
'cause you gotta be with someone special,
'cause being alone is kinda tough when it's...

Friday night in London City,
From Leicester Square right down to Chelsea,
There's parties happenin' everywhere,
But it don't feel the same without ya,
Everything would be so easy,
If you could be right here with me,
Don't wanna be all by myself,
At twelve o'clock on a Friday night in London, London.

I've been here and there - I've been everywhere,
I've seen everything there's to see - but it's true that it never compares,
To being at home - As long as you're not alone,
'cause you gotta be with someone special,
Instead of bein' on your own when it's...

Friday night in London City,
From Leicester Square right down to Chelsea,
There's parties happenin' everywhere,
But it don't feel the same without ya,
Everything would be so easy,
If you could be right here with me,
Don't wanna be all by myself,
At twelve o'clock on a Friday night in London, London - Hey!

I've been around the world - But that ain't enough,
'cause you gotta be with someone special,
Instead of bein' on your own when,
All ya need's a little love.

On a Friday night in London city,
From Leicester Square right down to Chelsea,
There's parties happenin' everywhere,
But it don't feel the same without ya,
Everything would be so easy,
If you could be right here with me,
Don't wanna be all by myself,
At twelve o'clock on a Friday night in,
Well where the hell do I find love,
At twelve o'clock on a Friday night in London, London.
