

Bryan Adams, Let's make a night to remember

I love the way you look tonight
with your hair hangin down on your shoulders
n i love the way ya dance you slow sweet tango
the way ya wanna do everything but talk
and how ya stare at me with those undress me eyes
you breath m on my body makes me warm inside
lets make out - lets do something amazing
lets do something like the way i touch your body
noe i never want to let your body go...
lets make a night - to remember
from january - to december
lets make love - to excite us
a memory - to ignite us
lets make honey baby - soft and tender
lets make sugar darlin - sweet surrender
lets make a night - to remember - all life long
i love the way ya move tonight
beads of sweat drippin down your skin
me lyin here - n you lyin there
our shadows on the wall and our hands everywhere
lets make out - lets do something amazing
lets do something thats all the way
cuz ive never touched somebody like the way i touch you body
now i never want to let your body go...
lets make a night - to remember
from january - to december
lets make love - to excite us
a memory - to ignite us
lets make honey baby - soft and tender
lets make sugar darlin - sweet surrender
lets make a night - to remember - all life long
i thing about ya all the time
cant you see you drive me outta my mind
wenn im never holdin back again
ya i never want this night to end
cuz ive never touched somebody like the way i touch you body
now i never want to let your body go...
