

# Bryan Adams, Someone's Daughter, Someone's

I was ok at first, my mum met my dad, he was on the booze, then it all went bad  
There was violence, we couldn't turn him round, sick of being abused, sick of nervous breakdowns  
Addiction hit me, white lines 'n alcohol - smoking weed, was numb to it all

Don't walk by - spare a thought for this man  
Don't walk by - just do what you can

Someones daughter, someones son  
We're out there together - in every weather  
Someones daughter, someones son  
You are invisible, not invincible  
Just invisible  
invisible

Was in a dark place, was stoned n drunk  
But there's no fear when you're high on junk  
I was slipping away, I was breaking down  
then I'd do another trick, on the wrong side of town

Don't walk by - spare a thought for this man  
Don't walk by - just do what you can

Someones daughter, someones son  
We're out there together - in heavy weather  
Someones daughter, someones son  
You are invisible, not invincible  
Just invisible  
invisible

Are you giving the support you can, n' inspire everyone to go slow (slow)  
To change their lives, change attitudes, not fear what you don't know (know)  
Are you someone's guardian angel

Someones daughter, someones son  
We're out there together - in every weather  
Someones daughter, someones son  
You are invisible, not invincible  
Just invisible  
invisible
