

# Bryan Adams, We Found What We Were Looking

We found our strength - We found our way at last,  
We found tomorrow - By building on our past,  
We paid our dues - We stick together - Come whatever.

We're still standin' - Didn't fall to pieces,  
Never lost our reason - Never stopped believin'.

We found our wings, now we fly above the wind,  
You and me - We found what we're looking for.

We gave it all - Gave our very best,  
With every fall - We withstood the test,  
We broke the rules - Had to do it - To get through it.

We found our wings, together we found everything,  
You and me - We found what we're looking for,  
You made me shine - Picked me up when I fell behind,  
With you - I never need to search no more.

We're still standin' - Didn't fall to pieces,  
Never lost our reason - Never stopped believin',  
Ahh never stopped - believin'.

We found our wings, together we found everything,  
You and me - We found what we're looking for,  
You made me shine - Picked me up when I fell behind,  
With you - I never need to search no more,  
You and me, we found what we were looking for.
