

# Buck Owens, I Know That You Know

I jump when you yell like a good little boy  
I dance when you sing like a good little toy  
I'd leave in a minute and head down the track  
But you and I know I'll just have to come back.

Yes, I know that you know that I love you  
As sure as the stars shine above you  
You don't have a care and I don't have a prayer  
And I know that you know that I care.

--- Instrumental ---

I'd come when you call like a good little clown  
I make with the jokes and I jump up and down  
I'd say that I'm leaving but you and I know  
That I'm only talking to hear the wind blow.

Yes, I know that you know that I love you  
As sure as the stars shine above you  
You don't have a care and I don't have a prayer  
And I know that you know that I care.

You don't have a care...
