

Buddy (US), Wait Too Long (ft. Blxst)

Cole, you stupid
Ooh, ooh, woah
Don't make me wait too long (too long)
Five liquor shots, I'm way too on (too on)
Time tickin', I'ma bring my phone (my phone)
Pussy perfect, girl, you can't do wrong (woah)
But don't make me wait too long (don't)
Slide on your favorite song (favorite song)
Like you find out you faded, loaded (loaded)
I pull up, but I can't stay too long
Fly shit, uh, yeah, look, I ain't got all day, baby
Money to make and I been tryna get paid
I got hoes in they feelings, grown women sentimental
Couple foreign things flyin' in and out of LA
I'm not a player, I got a plan
What's up with you? Girl, what you sayin'?
Do you wanna roll with a nigga from the land?
Let me see you pose for a minute
Five, five, thick thighs bustin' out of your Denim
Goddamn, ass fat, way more than a little dip
Prolly had me fallin' in love if a nigga hit
Never had a nigga from the hood, but she into it
Baby say she wanna go slow
Don't make me wait too long (too long)
Five liquor shots, I'm way too on (too on)
Time tickin', I'ma bring my phone (my phone)
Pussy perfect, girl, you can't do wrong (woah)
But don't make me wait too long (don't)
Slide on your favorite song (favorite song)
Find out you faded, loaded (loaded)
I pull up, but I can't stay too long
'Cause I'm too impatient, I just can't take my time (my time)
Don't make me wait in line (in line)
If you treat me basic, I'll find replacement
I keep it player all times
Don't make me wait too long
Oh, don't make me wait too long
Yeah, you know, yeah, you know, yeah, you know
Ayy, the clock tickin', the plot thickens, I'm not trippin'
I got bitches, you got niggas, we not different
Feel me? I got hoes, but not really
Wonder where the time goes when you not with me
Yeah, you're top ten, we should lock in
Hop in, baby, let me show you that I'm not playin'
You probably used to weird niggas, I am not them
Watch this, press one button, now she topless
Take one flight, hit the tropics
Take your whole life, make you my bitch
Make you fall in love with this boss shit
She said, "Not yet"
Don't make me wait too long (too long)
Five liquor shots, I'm way too on (too on)
Time tickin', I'ma bring my phone (my phone)
Pussy perfect, girl, you can't do wrong (woah)
But don't make me wait too long (don't)
Slide on your favorite song (favorite song)
Like you find out you faded, loaded (loaded)
I pull up, but I can't stay too long
'Cause I'm too impatient, I just can't take my time (my time)
Don't make me wait in line (in line)
If you treat me basic, I'll find replacement
I keep it player all times
Don't make me wait too long
