

# Buffalo Tom, Deep In The Ground

Three kinds of people, she just didn't care  
I've got a black and yellow box filled with her hair  
When she felt up to it she'd drive me around  
I've been taken so high, now deep in the ground  
Now deep in the ground  
She said give me a lantern-sized problem and I'll shed the light on you  
Tell me your nobody, I change the world for you  
Now things are different, she's nowhere to be found  
I've been taken so high  
Now deep in the ground  
Now deep in the ground  
Well, I filled up my bathtub with all kinds of things  
Little baby diapers and gold diamond rings  
I bury the hatchet deep in our blood  
No there's somebody lying in my tub  
Now deep in the ground  
Well, three kinds of people she just didn't care  
I've got a black and yellow box filled with her hair  
When she felt up to it she'd drive me around  
I've been taken so high now deep in the ground  
Now deep in the ground
