

Bullet For My Valentine, Rainbow Veins

Body shakes I got rainbows running through my veins
And now I just can't comedown
Flying high I'm still drowning in the chemicals
And now I just can't comedown
Diving head first into a black hole
Becoming unstable mentally
I'm tryin hard to ride these tidal waves
Of unfiltered ecstasy

Another day but I don't wanna face it
Oh oh oh oh oh oh I wanna heal so I'm self-medicating
And I don't wanna feel it now
Another day but I don't wanna face it
Another dose just to keep me sedated

And let reality float away
Body shakes i got rainbows running through my veins
And now i just can't comedown
Sinking deeper into a pit of snakes
As they dance to the melody
I got a time bomb ticking in my chest
That's never felt so heavenly
Tyake m ove the Edge
Don't wanna stop
And me notr coming down again
Take me further away
Not gonna stop
And i am never gonna be the same
