

# Busta Rhymes, Legend (feat. Morray)

Yeah, yeah  
Real smooth like  
Real smooth like  
Real smooth like

I'm just feelin' good, I'm just feeling great  
I been through some shit but it got handled like a man  
Had to learn some lessons, had to come up with a plan  
Takin' off in coach but first class is how I land  
Look at how I land  
I'm the greatest, no one can debate it  
Brushin' off haters who mad that I made it  
Niggas got mad 'cause they cannot create it  
They take off and don't ever land  
Look in the mirror, see nobody like me  
I was broke and now everything pricey  
Only one that was more than a pipin'  
Now that I'm poppin', yeah

Now let it show what mami do  
That was more than a pipin'  
Now that I'm poppin', yeah  
Now let her see the way we do  
That was more than a pipin'  
Now that I'm poppin', yeah  
Yeah, I'ma give you a second  
Somebody please go and call up the reverend  
How we fuck shit up, we need you to bless him  
Everything legend

Ballin' like Lamelo  
Nigga proud as fuck because he comin' out the ghetto  
Dog off the leash now I run the whole peno  
Hella war stories, push a nigga out in then go  
Spider-Man shoot a nigga down, Uncle Ben, no  
Married to the game, throwin' rice in Quabec, ho  
Fuck you if you hatin', yeah, I'm tryin' to offend you  
You don't fuck with me, don't lie, over gentle  
You lil' bitches  
Ballin' like a nigga on the court  
Now my fuckin' contract lookin' like I play sports  
And my pockets never empty, cup full, over poured  
Never skip a fuckin' beat, just tell my nigga press record  
I'm the king of my castle and I'm also runnin' yours  
I be runnin' through the bitches when a nigga feelin' bored  
Have 'em cleanin' up the nine, make that shit one that they chose  
That's enough of my fuckin' day, Busta, tell me how was yours?

I'm just feelin' good, I'm just feeling great  
I been through some shit but it got handled like a man  
Had to learn some lessons, had to come up with a plan  
Takin' off in coach but first class is how I land

Bitch, I got the feelin'  
Everytime I rise, they try to block me at the ceiling  
I'm the reason that they add a floor up in the building  
Security ain't realize that I own the motherfucker, tryna block the way I get it  
Pass a glass of DeLeon  
Hundred million dollars in these bags, how I'ma get it home?  
Every single dollar, gotta count it 'fore a nigga gone  
Lucky, see we open 'bout that money, and that be the norm  
Now listen to this song  
You know we ready  
Flashin' every car and crib and jewelry 'cause we petty  
Splashin' every bottle of the Rose with confetti  
Celebratin' life when we be in this motherfucker and we champion ready  
Y'all already know the rap  
Think he steppin' big but niggas know who got the biggest step  
Niggas always wanna try to pull up with a dumbass cap  
Pull up with a throne to celebrate, y'all niggas know the rest

I'm just feelin' good, I'm just feeling great  
I been through some shit but it got handled like a man  
Had to learn some lessons, had to come up with a plan  
Takin' off in coach but first class is how I land
