And niggas don't believe then tell em put fifty up

All bets is down, all my thugs do dirt, all our tecs spit rounds
My ? playas disrespected clowns
Bringing guns, weed and coke to connected towns
See I pop niggas like corn, and real killers do killings wit the lights on

I knock em out, cause I don't like to fight long
Remember me lefty gun up in my right palm
It's mysonne, see mysonne is the one that knock on your door
You open up, you see a whore wit the glock to your jaw
See mysonne is the one that hit the blocks wit the raw
For his money, mysonne air the block wit the four
Yall cowards don't want war, y'all can't stand pain
Cop you some gators, drink champane
Cause when it comes to the street shit, I let the heat lift
Murder scene police lines nigga white sheet shit

Yall niggas don't want nothing to do wit me
Cause I spit guns and rhymes like their's two of me
Motherf**ker

[prodigy]
Niggas can't be serious, we wear guns like clothes
But only show em when it's time to blow em in bulk
We been through way worse then war, razor fights and more
Left niggas wit leaks, holes and wide jaw
Be the quiet storm, appear how you wanna scale bar
Check out your weight, see if it's worth to war
We did the street life y'all niggas just got involved
My appetite for guns is similar to carnivores
Dislike me you head on, fight me you dead wrong
Cause now a days you only get wet wit my dead on
Don't let this song push you, the fourth hit you
Have you keyed up gasping for breath on the floor cripple
Infamous we take it to the extremes my words
Especially when a nigga mistake me for herb
Get buried over words, I'm loose wit the dessy bird
I can show ready or tell, y'all niggas heard

[busta rhymes]
Now gitty up now, it's lighting horse back saddleing
Rob beaches like we rowing a boat and we paddleing
Down a stream of water, wet any nigga challeging
Blow one all in your knee cap leave you staggering
Scrambling cause theirs a whole lot of shit we be handling
My hands all in the money, f**k it we dibble and dabbling
Got you imageing how this could really all be happeing
My landscape of live niggas stretch from here to maryland
Blaw put one in a nigga who be rambling
And blow a hundred thou if y'all niggas is really gambling
Gritty niggas feel the snap pop leaving it crackling
You know the bouncer keep all of my live niggas wild wit him
Traveling to see niggas from howard through grambling
Ha round up my niggas to form a large gathering
Yo rattling niggas who walk badlimp
Beat you in the same place till the blues start blacking
C-e-o niggas stay genaral managing
Flipmode throwing those heavy bundles we carrying
Yo analyze my many live niggas cramming it
We throw a three pointer, while y'all niggas throwing javelins
Sweating your whole shit, feel your clothes dampeing
Dancing in a line of four wheel drives we lamping
The ? arms length up in the draw paneling
Or unraveling the truth on how niggas remain champions

Ha, ha, ha

[busta rhymes]

Flipmode, violator, we always silence shit

F**k is wrong wit yall

Cut that shit off now
