

# C-BooL, What Can I Do

Days, they run away too fast  
(Too fast)  
There's no time  
To catch them for us  
Enjoy as in the past

Simple things  
They can be difficult  
(Can be difficult)  
When you feel  
So strange inside  
And so invisible

But I know you are always here  
And you know how to cure my fear  
Every single moment  
You can show me more  
For sure

Come and teach me something new  
What can I do,  
What can I do,  
To be the best for you?  
I'm trying to surprise and give you more today  
What can I do?  
What can I say?  
Show me the perfect way  
Come and teach me something new  
What can I do,  
What can I do,  
To be the best for you?  
I'm trying to surprise and give you more today  
What can I do?  
What can I say?  
Show me the perfect way!

Dreams will always be for us  
(Be for us, be for us)  
Don't put them off  
And raise your head up  
Don't look back to the past

But I know you are always here  
And you know how to cure my fear  
Every single moment  
You can show me more  
For sure

Come and teach me something new  
What can I do,  
What can I do,  
To be the best for you?  
I'm trying to surprise and give you more today  
What can I do?  
What can I say?  
Show me the perfect way  
Come and teach me something new  
What can I do,  
What can I do,  
To be the best for you?  
I'm trying to surprise and give you more today  
What can I do?  
What can I say?  
Show me the perfect way

Come and teach me something new
