

C-BooL x Skytech x Up & Down, High On The Summer

baby tell me where you wanna go
talking Venice beach or maybe Mexico
we'll bury all our demons in the sand
sing a little 2 pac till we crash

oh if got the gin and the spice
baby you could be my paradise
yeah, if you got the gin and the spice
babe, I'm all yours I'm all yours
I'm all yours

when the sun comes out
we all wanna get down
high on the summer
we're all high on the summer
when the sun comes out
we all wanna get down
high on the summer
we're all high on the summer
when the sun comes out
we all wanna get down
high on the summer
we're all high on the summer
when the sun comes out
we all wanna get down
high on the summer
we're all high on the summer

when the sun comes out
when the sun comes out
when the sun comes out
we all wanna get down
high on the summer
we all wanna gonna high on the summer
