

Caleigh Peters, Reach

Sometimes it seems like you're falling
Falling out of the sky
Sometimes it feels like you're slipping
And running out of time
And that's when you've gotta throw it all away
All of the things that people say
And all of the doubts that fill your mind
Don't belong there
Whatever you do, you'll never be wrong
As long as you reach for it
When you reach for it, nothings to far
And its never to long, as long as you reach for it
You can dream on it, everywhere its there
Sometimes I can be stupid I can get out of line
But most times you know what I'm doing
Its not like some big surprise
Oh and I, I just want to make you understand
That failing on me isn't in my plans
And all of the doubts that fill my mind
Don't belong there
Whatever you do, you'll never be wrong
As long as you reach for it
When you reach for it, nothings to far
And its never to long, as long as you reach for it
You can dream on it, everywhere
There's so much distance
Between what you want and what you've got
But if you really want it-its your life
So you gotta try You've gotta fly
Whatever you do, you'll never be wrong
You can reach for it
You can reach for it
Its never to far and its never to long
As long as you reach for it
You can dream on it, everywhere
Everywhere Everywhere Everywhere
