

Calum Scott, Biblical

Didn't know that i'd fall so hard
That my feet left the ground
Gravity don't make no sense
When you're not around
I come up against myslef when
Demons in my head get loud
I don't know how you do it
But you turn tchem down

I slip and Wonder who i'd be
If i never found you
And you never found me
Well, i don't wanna see

So won't you give me tonight
And the rest of your life
I wanna have it all with you
I wanna have it all with you
And wghne you open your eyes
I'll be there by your side
I wanna have it all with you
I wanna have it all with you

Cause your love is biblical
Biblical, it's biblical

If you ever go to pieces
Fall between the thinder clouds
I will put you back together
I won't let you down

I slip and Wonder who i'd be
If i never found you
And you never found me
Well, i don't wanna see

So won't you give me tonight
And the rest of your life
I wanna have it all with you
I wanna have it all with you
And wghne you open your eyes
I'll be there by your side
I wanna have it all with you
I wanna have it all with you
I wanna have it all with you
I wanna have it all with you
I wanna have it all with you
I wanna have it all with you

Cause your love is biblical
Biblical, it's biblical

So won't you give me tonight
And the rest of your life
I wanna have it all with you
I wanna have it all with you
And wghne you open your eyes
I'll be there by your side
I wanna have it all with you
I wanna have it all with you

Cause your love is biblical
Biblical, it's biblical
