

Camila Cabello, Like Friends Do

So you said "I'll sit straight on the couch" like friends do
And "I'll stop kissing your mouth" like friends do
'Cause I can't look at you quite like friends do
Like friends do
Like friends do
And you don't say my name quite like friends do
And when I kiss your neck, does it feel like friends do?
So baby say it again, I dare you
But this feels like
Like friends do
