

# Camila Cabello, Same Drugs

[Verse 1]

Where did you go?

Why would you stay?

You must have lost your marbles

You always were so forgetful

In a hurry, don't wait up

I was too late, I was too late

A shadow of what I once was

'Cause we don't, we don't do what we say we're gonna

You were always perfect, and I was only practice

Don't you miss the days, stranger?

Don't you miss the days?

Don't you miss the danger?

[Chorus 3:]

We don't (we don't) do the same drugs no more (do the same drugs no more)

We don't do the, we don't do the same drugs, do the same drugs no more

We don't (we don't) do the same drugs no more (do the same drugs no more)

We don't do the, we don't do the same drugs, do the same drugs no more

We don't do the, we don't do the same drugs
