

Camouflage, Confusion

I love with no regrets
I give you what I get
How can I let you know
About to let things go

Change it for you
And not for me
Things have been done too long
I've got a name
A name for you
'Cause things have been done too long

Don't fool yourself
Confusion
Don't keep all your begging inside your heart
Don't fool yourself
Confusion
Try to catch up to me
Though you missed the start
Don't fool yourself!

I stand right by your side
There's nothing more to hide
How can I let you know
About to let things grow

Change it for you
And not for me
Things have been done too long
I've got a name
A name for you
'Cause things have been done too long
