

# Canaan, Mercury

Drink this mercury  
from my open hands  
for I'm the breathing shadow  
that keeps us alive

This grey sky turned to black  
so many times honey.....

So stay with me tonight  
hold my hands tonight  
For I'm the smiling ghost  
that binds our hearts together

Don't leave me tonight  
For I have mercury that burns  
Hold these hands of mine  
Kiss these lips of mine  
For I'm the mirror  
that never lies

Stay with me tonight  
Die with me tonight  
The sky will turn to black  
for the very last time tonight  
honey....
