

Candye Kane, Scream In The Night

I go to sleep each night about one
I dream that you're out having fun
About the time that the clock strikes two,
I dream a girl is kissing you, and I scream -
Scream in the Night!

About the time that the clock strikes three,
That same dream comes to me,
and each night when the clock strikes four,
I dream that chick is at your door, and I scream -
Scream in the Night!

When it's five, man alive,
the way she's handing you that jive
if that chick don't stop her tricks,
I'm gonna scream when the clock strikes six.

Every night from one till eight,
How those dreams sure aggravate.
All night long, what tears I shed
Till I'm swimming in my bed and I scream -
Scream in the Night!

When it's five, man alive,
the way she's handing you that jive
If that chick don't stop her tricks,
I'm gonna scream when the clock strikes six.
So, tomorrow night at two,
I'm gonna dream of someone new
And tomorrow night at three
I'm gonna hold him close to me
Till you scream -
Scream in the Night!
