

Canterra, Heartmachine

Come see who of them is lying
Come feed the heart to a new start without a doubt
Let's heat the beat, stop crying
Let's dry the tears - Forget your fears – Without control

Come and turn these wheels to change
Come, this train will lead us

Hey now, now, now - Hey now - Hey now na now
Gonna be around - Hey now now
Heat the fire - Heat the heartmachine
Hey now, now, now - Hey now - Hey now na now
Gonna be around - Hey now now
Heat the fire - Let's heat the heartmachine

Depart to a new horizon
Don't fall apart - Take heart, and do it now
Keep your head high, no distraction
Stop wasting time - Don't hesitate to change the world

Come and turn these wheels to change
Come, this train will lead us

Hey now, now, now - Hey now - Hey now na now
Gonna be around - Hey now now
Heat the fire - Heat the heartmachine
Hey now, now, now - Hey now - Hey now na now
Gonna be around - Hey now now
Heat the fire - Let's heat the heartmachine

Working and turning these wheels to stay strong

Riding these railroads to somewhere we belong
Until the drive frame breaks our bones

Hey now, now, now - Hey now - Hey now na now
Gonna be around - Hey now now
Heat the fire - Let's heat the heartmachine
Hey now, now, now - Hey now - Hey now na now
Gonna be around
In this night I just wanna heat - Heat the heartmachine
