'97 Mentality

Punk motherfuckers better beware of the shaolin
Defy interactive project children of the corn
Gats and my man keep em bustin till he's gone
Style so ancient it sparks just like the unicorn
'donna come through everyday my uniform
Changes and switches, i came to make ladies out of bitches
Crackhead niggaz get stitches
So what up with that kid, danger when i attack kid
Watch how the slang hits you, just like the fat kid
Form another pyramid, look how we slid
All over park hill, stapleton politic
On a twenty dollar bill all in it together
You can't fuck with the stormy weather, yaknahmean?

[ghostface]

To the year born god all the gods strike hard
Fast from the swine hold down your boulevard
Father-u to c-cypher, start the revolution
Middle finger in the air, for slang prostitution
(repeat 2x)
