Cappadonna  
Miscellaneous  
'97 Mentality

Punk motherfuckers better beware of the shaolin  
Defy interactive project children of the corn  
Gats and my man keep em bustin till he's gone  
Style so ancient it sparks just like the unicorn  
'donna come through everyday my uniform  
Changes and switches, i came to make ladies out of bitches  
Crackhead niggaz get stitches  
So what up with that kid, danger when i attack kid  
Watch how the slang hits you, just like the fat kid  
Form another pyramid, look how we slid  
All over park hill, stapleton politic  
On a twenty dollar bill all in it together  
You can't fuck with the stormy weather, yaknahmean?

[ghostface]

To the year born god all the gods strike hard  
Fast from the swine hold down your boulevard  
Father-u to c-cypher, start the revolution  
Middle finger in the air, for slang prostitution  
(repeat 2x)
