

# Carlos Santana, Feels Like Fire

I'm telling you it's over  
Now there's an angel  
Holding me  
My way's easy  
Even if you're fallen  
Or you're struggling  
There's still beauty  
In what we do

So que sera  
Let's go sailing on  
There's a wise man  
In every fool

[Chorus:]  
I say come back  
Come in from the cold  
Into the warm  
I feel like fire  
Guiding you back home  
As darkness falls

So everyone stands in line  
Cos they wanna stay alive  
To wait alone  
No dog no bone  
And then you find it's over  
Still it tears your heart  
To slip away  
From the crowd

But if you have  
What it takes  
To return to where  
All the world  
Knows your name  
Then que sera  
Let's go sailing on  
There's a wise man  
In every fool

I say come home  
Leave it all behind  
And settle down  
I feel my love  
Can give me what I want  
For all time
