

Carly Rae Jepsen, Beach Hous

Boy #1 made a picnic for two
Saw he was nervous, I thought it was cute
Until I found out that his mom made the food
(It was good though)

Boy #2 had a beautiful face
Highly agreed to go back to his place
His wife really had some impeccable taste
(She was sweet though)

I've been on this ride
This rollercoaster's
A carousel
And I'm getting nowhere

Boys around the world
I want to believe that
When you chase a girl
It's not just hunting season
I can see the future, say it like you mean it

I've got a beach house in Malibu
And I'm probably gonna hurt your feelings
I'm probably gonna hurt your feelings
I'm probably gonna hurt you

Boy #12 had a look in his eye
Brought up his ex and he started to cry
Told me he loved me the very first night
(Oh no)

Who knows what I'm in for with boy #
I can't keep count anymore

I've been on this ride
This rollercoaster's
A carousel
And I'm getting nowhere

Boys around the world
I want to believe that
When you chase a girl
It's not just hunting season
I can see the future, say it like you mean it

I've got a beach house in Malibu
And I'm probably gonna hurt your feelings

I'm probably gonna hurt you

I've got a weekend in paradise and
I'm probably gonna never call you

I'm probably gonna hurt you

I got big plans to take care of you,
I just need to borrow ten thousand dollars

I'm probably gonna hurt you

I've got a lake house in Canada and
I'm probably gonna harvest your organs

I'm probably gonna hurt you

I've got a beach house in Malibu
And I'm probably gonna hurt your feelings

Boys around the world
I want to believe that
When you chase a girl
It's not just hunting season
I can see the future, say it like you mean it

I've got a beach house in Malibu
And I'm probably gonna hurt your feelings
