

# Carly Rae Jepsen, Want You In My Room

when all the lights out  
hey  
where you going  
I keep a window  
for you  
it's always open

I am like a lighthouse  
I am a reminder of where you going  
I am in your head now  
I am every second now  
is your love going?

oh, with you  
hey  
I got to get bolder

I just wanna get a  
little bit closer  
ha-ha-ha  
and I press you to  
the pages of my heart

I want you in my room  
on the bed  
on the floor  
I want you in my room  
I don't care anymore  
I wanna do bad things to you  
slide on through my window  
I want you in my room  
baby, don't you want me, too?

when no one loves you  
like they really mean it  
I got you covered  
under covers  
can you feel it?

oh  
whit you  
oh, with you  
hey  
I got to get bolder

I just wanna get a  
little bit closer  
ha-ha-ha  
and I press you to  
the pages of my heart

I want you in my room  
on the bed  
on the floor  
I want you in my room  
I don't care anymore  
I wanna do bad things to you  
slide on through my window  
I want you in my room  
baby, don't you want me, too?
