## Cary Brothers, Something

And you think you're alone as if I wasn't there You're losing your faith in me It's a car, it's a crash, it's a death, and you're scared You just can't escape the scene

Hush now you're insane Touch my skin, come back again The sky is falling

It's something you cannot fake This something you will not shake Just walk away before I look at you It's something only you can take

All your words, it's a lie to yourself, it's a home There's so much that you can't see It's a bomb that can kill everyone, and it blows You can't even hear me scream

Hush now you're insane Touch my skin, come back again The sky is falling

It's something you cannot fake This something you will not shake Just walk away before I look at you It's something only you can take

This is only feeling with no thought Is this love? What happened to the promises I bought? Is this love?

It's something you cannot fake This something you will not shake Just walk away before I look at you It's something only you can take
