[Verse 1:]

Picture this

While you drive

On a late night

I'm a hear your in that desert

Tryin to survive

But it's hot out there

All alone (All alone)

By yourself (By yourself)

Wonderin' each moment when will it be over

Run out of breath

And you need my help

And you say that you're thirsty

[Chorus:]

Thirsty, so thirsty it's not my fault

You had a glass waitin' for you but you ain't come

That's how you feel

What you want

Then you shouldn't try to front

Keep it real

You told me that

Now you tryin' to get me back, oooh

[Break:]

T-H-I-R-S-T-Y

You're so thirsty

You're so thirsty

T-H-I-R-S-T-Y

Oooh

Come and get me

Come and get me

[Verse 2:]

Let it drip

Down your mouth

I'm a tease you, show you

What you been missin

Me, Get a night

I'll let you get another sip

Appreciate what you get

Cause for someone who act like he ain't want it

No, I ain't forget

Beggin me to give you this

[Chorus]

[Bridge:]

Ooo I got you dreamin wishin you was in the deep end

You're so thirsty, you're so thirsty

Here we could be fully submerged

Mmmm I think about it

I doubt it should make you live without it

And keep you dying of thirst

I'm just playin' with you

[Chorus]

[Break:]

T-H-I-R-S-T-Y

You're so thirsty

You're so thirsty

T-H-I-R-S-T-Y

Oooh

Come and get me  
Come and get me
