## Cavalera Conspiracy, Sanctuary

Loaded with dynamite I don't give a fuck 'cause Everybody die tonight Call me negative Call me what you want You are nothing Never was... never will

My hostility My sanctuary My reality My sanctuary.... underground

Coming with the storm
You wish you were never born
Fucked up reality
I'll take your soul and plant my seed

My hostility
My sanctuary
My reality
My sanctuary.... underground

No excuses, no regrets Everybody die tonight Everybody die tonight

No divisions, no turning back Everybody die tonight Everybody die tonight

Sanctuary, sanctuary Everybody die tonight Everybody die tonight...
