

# Celeste, She's My Sunshine

[Verse 1]

She don't wanna see me look down  
She's the one to help me up when I'm falling  
See me rise now, see me rise now  
And every time my head's in the clouds  
She saves me from myself  
Spin the world round, spin it right round

[Chorus]

She's my sunshine, oh  
Like the morning shining through my window  
She's my sunshine, woah  
Like the morning shining through my window

[Verse 2]

Who I am without her around?  
She's the one to tell me who I am in the morning  
See me rise now, see me rise now  
And when my days are filled with doubt  
She shows me the way out  
She spin the world round, spin it right round

[Chorus]

She's my sunshine, oh  
Like the morning shining through my window  
She's my sunshine, woah  
Like the morning shining through my window

[Bridge]

Here she comes (If I go wrong, well, she shows me)  
Here she comes (She'd never ever ever ever leave me lonely)  
Here she comes (The only thing I need, here she comes)  
Here she comes (If I go wrong, well, she shows me)  
Here she comes (She'd never ever ever ever leave me lonely)  
Here she comes (The only thing I need, here she comes)

[Chorus]

She's my sunshine, oh  
Like the morning shining through my window  
She's my sunshine, woah  
Like the morning shining through my window

[Outro]

What do I know?  
Tell me, what do I know?  
Just one thing, one thing, one thing  
Let me tell you one thing  
She is my sun  
She won't forget I'm here  
High when my day disappears
