

CETI, Somethin' More

Look for my dreams
They fade away
Still have the choice
Forever young
Dump when we smile
Save my soul
How can I?

And I'm still traveling
Across the Universe
And I need something more

Look in your eyes
So wasted days
And once giving it's time to go
You never know
What thus the ghost
Of .. innocent cry

We always
Across the Universe
You can deny it's my lies

Show me the brides
So me the way
Where should I stay now
This stupid games
We play sometimes
Another tired..

And I'm still traveling
Across the Universe
And always need something more

Now we reach
Now we reach
Yes, I am
Show me your scars
