

# Chad VanGaalén, City of Electric Light

And I thought you were the moon in the sky  
But it turned out you were just a street light  
You were burning like a hole in the night  
You were burning like a city of electric light (4x)  
And I thought you were the moon in the skies  
But it turned out you were just a pair of eyes  
You were lurking like a creature in the night  
You were looking like a city of electric light (4x)

Hanging by a field

Hanging in your sleep

Hanging in a dream

Uuuhhh uuuuh uuuuh uuuuuh

He connect the stars

Every single one

Hanging like the sun

Uuuhhh uuuuh uuuuh uuuuuh

And I thought you were the moon in the sky

But it turned out you were just a street light

You were burning like a hole in the night

You were burning like a city of electric light (4x)
