

Chaka Khan, Clouds

(Nicholas Ashford and Valerie Simpson)

Clouds

Different shapes and sizes
Hiding the horizon

Clouds

In the distance
Coming to change my plans
All my dreams will melt like sand

Clouds

The moment that you say good-bye
They're gonna rush right to the sky

Whoa...

Baby, baby, please don't go

It's gonna rain

It's gonna rain

It's gonna rain down tears
Of heartaches and fears

It's gonna rain

It's gonna rain

I know for sure

'Cause you don't reach for me no more

It's gonna rain

It's gonna rain

There in the distance

Is that number one pain

Clouds

Thunder is the warning
So dark and so alarming

Clouds

Go away, go away

Go, don't take away my sunny days

Clouds

Leave me be

Getting so dark out

I just can't see
