

# Chamillionaire, Won't Let You Down

[Intro]

Chamillitary man!  
Get off your couch and go get it!

[Chorus (K-Ci)]

I'm up early in the mornin, thinkin bout gettin this money  
All I know's I've gotta get that paper  
The hustlers told me that I gotta go and get it  
Now I'm gettin it the best way I know how  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down

[Verse 1]

Up earlier than a mutha, chasin money 'cause I'm a hustler,  
and tomorrow everything is gonna be right, gonna be right  
Only 7 days a week and 24 hours a day,  
that aint enough for me so I aint wastin time, wastin time  
Only dreams come to sleepers and my life aint gettin cheaper  
so you know them dollar signs stay on my mind, on my mind  
When they ask me where I'm goin, I say you already know it,  
bout to hit the streets and go and get whats mine  
I wont let you down

Dreams of havin finer things, riding blades, dreamin should,  
make you wanna wake up and get it In real life and see the wood,  
in your grill, if you're slip and dont grab what you're seein, good  
Only place that you gon be or ever see gon be the hood

[Chorus (K-Ci)]

I'm up early in the mornin, thinkin bout gettin this money  
All I know's I've gotta get that paper  
The hustlers told me that I gotta go and get it  
Now I'm gettin it the best way I know how  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down

[Verse 2]

Boy that word aint no excuse, you know what it mean to me,  
means your passin over opportunities repeatedly  
Write it on a piece of paper, only thing I see is P  
paper paper paper, chaser a better thing for me to be  
No my services aint for free, make that money multiply  
up early in the mornin I'll be gone A chase with me it aint gonna be no tie,  
tryna explain and give em game, I dunno why I even try  
You'd do the same if you was I but you are you so you gon lie  
Make them think that you got cash, tell them ladies you got slabs  
Only thing you get is laughs, you cant even bring down half of the bill thats on that tab  
ONLY thing wrong with being broke is staying broke and makin excuses bout it like it aint no thang

[Chorus (K-Ci)]

I'm up early in the mornin, thinkin bout gettin this money  
All I know's I've gotta get that paper  
The hustlers told me that I gotta go and get it  
Now I'm gettin it the best way I know how  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down

[Verse 3]

Gettin bored of havin nothing, wishin I was havin somethin,  
I remember it like it was yesterday, yesterday  
They was talkin down on me, and I hustled a couple homies,

I was gettin mine while they used to pray, used to pray  
They say I need to slow down but I aint slowin down for nothin,  
I dont wanna let that paper get away, get away  
So when I'm in the streets grindin aint no need to be cryin,  
The best way that you can help me is to pray  
I wont let you down

Pilots that was gettin lazy, females that was actin crazy,  
them promoters that tried to play me, Mix tape labels that wouldnt play me,  
my old homies that aint around me, dissin rappers that came to find me  
Major labels that didnt sign me, left all that nonsense behind me when I got paid

[Chorus (K-Ci)]

I'm up early in the mornin, thinkin bout gettin this money  
All I know's I've gotta get that paper  
The hustlers told me that I gotta go and get it  
Now I'm gettin it the best way I know how  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down, wont let you down, I wont let you down, I wont let you down  
I wont let you down
