## Champs, Vamala

I've been running circles lately, I've been doing time I've been on the avenues, spinning out my mind and I've been on t-shirts, lately I've been on TV I've been looking through your eyes

and that's my tragedy!

I really wanna tell you now

Baby, if I'm allowed maybe if I could teach you,

All the things and all by now

I really wanna beat the world

Baby, if I'm allowed maybe if there's a moon beam

Where the colored I'd know how

Tell me, tell me is it real Vamala?

Am I up as high as I feel or am I dying?

Tell me, tell me is it real Vamala?

Am I up as high as I feel or am I dying?

I've been tryina reach you lately, I've been on my knees

I've been with the Eskimo at -10 degrees

and I've been on the ocean, I've been through the trees

I went out with Bowie in the 1970's

I really wanna tell you now

Baby, if I'm allowed maybe if I could teach you,

All the things and all by now

I really wanna beat the world

Baby, if I'm allowed maybe if there's a moon beam

Where the colored I'd know how

Tell me, tell me is it real Vamala?

Am I up as high as I feel or am I dying?

Tell me, tell me is it real Vamala?

Am I up as high as I feel or am I dying?

Never had to met you

Never had to met you

Never had to met you

If I'd never had to met you

If I'd never had to met you

Tell me, tell me is it real Vamala?

Am I up as high as I feel or am I dying?

Tell me, tell me is it real Vamala?

Am I up as high as I feel or am I dying?
