

# Chaos UK, The End Is Nigh

Don't you look outside your window  
It's cold outside  
It's cold outside  
People stare and you don't know  
It's cold outside  
It's cold outside  
You watch people come as they go  
It's cold outside  
It's cold outside  
Tally on and nowhere to go  
It's cold outside  
It's cold outside  
The end is nigh or so they reckon  
It's cold outside  
It's cold outside  
What's that flash on the horizon?  
I don't know  
I don't know
