

# Charli XCX, Cross You Out (feat. Sky Ferreira)

build a world all in my mind  
all on my own  
will I survive?

century of tears  
sadness was my only smile  
thought I'd fall apart  
but you're gone and I'm doing fine  
I'm screaming out

when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
I'll finally cross you out  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
I'll finally cross you out

melt me down one piece at a time  
I am saying these eyes were shut  
I wasn't mesmerized, no

century of tears  
sadness was my only smile  
thought I'd fall apart  
but you're gone and I'm doing fine  
I'm screaming out

when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
I'll finally cross you out  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
when you're not around  
I'll finally cross you out
