

# Charli XCX, Famous

Bored on Friday night  
Spinning 'round just like I'm hypnotised, oh oh  
Need some neon lights  
Wanna feel like I'm electrified, so help me out

Get your boyfriend's car  
Come and pick me up,  
Let's take it for a ride  
What trouble can we find?

One night, and we're gonna come and crash the party  
Weren't invited but we're feeling so outrageous  
Just like we're famous  
Got one night, and we're gonna come and get it started  
Now we're falling down the stairs  
We act so shameless  
Come on let's lose control!

One night, and we're gonna come and crash the party  
Weren't invited but we're feeling so outrageous  
Just like we're famous  
Got one night, and we're gonna come and get it started  
Now we're falling down the stairs  
We act so shameless  
Just like we're famous

Just like we're famous

Blown up like balloons  
Purple glitter flying through the air  
Sweat drips from the roof  
And you know we're Lucy in the sky of diamonds

Music playing loud  
Tripping through the crowd, oh  
Put your sunglasses on  
Don't care if we look dumb
