

Charli XCX, Forever

love suicide
you and I drove for miles
knew I'd be here, be here be here whit you
knew I'd be here, be here be here whit you
we took a dive in the blue, scared to lose
all my feelings, feelings, feelings for you
knew I'd be here, be here be here whit you
no we gotta let this go

drove the car off the road
I gotta give you time to grow
you're not a ghost
you're in my head
I didn't wanna leave you low
drove the car off the road
I hope you get some time to grow
you're not a ghost
you're in my head
I will always love you
I will love you forever
