

# Charli XCX, X-Ray Specs

I see you watching out of your eye  
You're not gonna win, but you might as well try  
You break me down  
You're not like other guys, oh no

So jump on in, if you're ready to crash  
So drive me fast 'cause this will not last  
But if you cut me  
Then you turn the magic on tonight

Got my x-ray specs and I'm watching you  
I can see you making your every move  
Give me your heart on a rope, like a yo-yo-yo  
Got my x-ray specs and I'm watching you

You have got me under your spell  
And I want to get to know you well  
So tell me what you like  
And what to do to you

'Cause I'd like to be like a super freak  
You can put me in positions that will make you weak  
So just wash your eyes  
And shut your mouth, don't speak to me

Got my x-ray specs and I'm watching you  
I can see you making your every move  
Give me your heart on a rope like a yo-yo-yo  
Got my x-ray specs and I'm watching you

Like money on a bank account  
Can't stay in, you can check me out  
Get down on that leather couch  
Spin that bottle, c'mon let's make out  
Loving all the things that you do to me  
Like it when you go down, let's get freaky  
My hand wherever you want me  
Double double dare yeah let's get crazy

X-ray specs, watching you /2x

Got my x-ray specs and I'm watching you  
I can see you making your every move  
Give me your heart on a rope like a yo-yo-yo  
Got my x-ray specs and I'm watching you

X-ray specs, watching you /4x
