## Charli XCX, X-Ray Specs

I see you watching out of your eye You're not gonna win, but you might as well try You break me down You're not like other guys, oh no

So jump on in, if you're ready to crash So drive me fast 'cause this will not last But if you cut me Then you turn the magic on tonight

Got my x-ray specs and I'm watching you I can see you making your every move Give me your heart on a rope, like a yo-yo-yo Got my x-ray specs and I'm watching you

You have got me under your spell And I want to get to know you well So tell me what you like And what to do to you

'Cause I'd like to be like a super freak You can put me in positions that will make you weak So just wash your eyes And shut your mouth, don't speak to me

Got my x-ray specs and I'm watching you I can see you making your every move Give me your heart on a rope like a yo-yo-yo Got my x-ray specs and I'm watching you

Like money on a bank account
Can't stay in, you can check me out
Get down on that leather couch
Spin that bottle, c'mon let's make out
Loving all the things that you do to me
Like it when you go down, let's get freaky
My hand wherever you want me
Double double dare yeah let's get crazy

X-ray specs, watching you /2x

Got my x-ray specs and I'm watching you I can see you making your every move Give me your heart on a rope like a yo-yo-yo Got my x-ray specs and I'm watching you

X-ray specs, watching you /4x
